

Capability Statement

Total Protection, Inside and Out. We provide high-performance site security and specialized containment systems designed to ensure operational continuity, protecting our clients and all their needs.

DIFFERENTIATORS

Google Vetted: Extensive field experience at SRP sites has standardized our operations to meet the rigorous expectations of global data center leaders.

Signatory to Iron Workers: Signatory to the Iron Workers (Cahokia Heights). We provide an elite, trained workforce that ensures labor harmony and structural excellence on every site.

Tier-1 Prime Experience: Expert-level subcontractor for Kiewit, JE Dunn, and Poettker. We understand the rigorous safety, submittal, and scheduling requirements of global-scale GCs.

Tier-1 Safety Standards: OSHA 30 Certified field leadership. We maintain a 1.0 EMR (Industry Neutral) and a Zero Incident Rate.

Diversity & Performance: A Woman-Owned Small Business (WOSB) that delivers elite technical results, helping Primes meet participation goals without sacrificing quality.

Core Competencies

Mission-critical perimeter security and containment systems for high-risk and high-spec environments.

- **High-Security ClearView Systems:** Regional specialists in 358 high-density, anti-climb/anti-cut mesh.
- **Extreme-Height Security Structures:** Engineering and installation of vertical barriers up to 24'+ with specialized wind-load anchoring.
- **Apex Predator Containment:** Structural steel and heavy-gauge mesh for high-risk animal and security environments (Gorilla/Tiger/Aviary).
- **Design-Assist Coordination:** Direct collaboration with Architects and Engineers on high-spec, one-of-a-kind security projects.

Past Performances

Google SRP (Omaha): Regional ClearView Pioneer
- Prime: JE Dunn
- Scope: Pioneered one of the first successful installations of ClearView high-security fencing for Google in the region.
- Result: Set the regional standard for 358-mesh execution, meeting 100% of Fortune 50 security protocol

Illinois Institutional Projects: Union-Labor Execution
- Prime: Poettker Construction
- Scope: Strategic perimeter partner for large-scale institutional projects requiring union labor coordination.
- Result: Signatory to Iron Workers (Cahokia Heights); seamless integration into complex CBA/prevailing wage job sites.

Omaha Henry Doorly Zoo: High-Risk Specialty Containment
- Prime: Kiewit | JE Dunn
- Scope: High-strength containment for Gorillas, Tigers, and Aviaries, along with large-scale exclusion fencing.
- Result: Delivered "No-Fail" structural integrity for apex predator enclosures in a high-traffic environment.

North 40 (Spokane, WA): 16' Specialized Security Barrier
- Prime: Young Construction
- Scope: Engineered and installed a unique 16-foot tall security fence requiring specialized anchoring and vertical installation protocols.
- Result: Engineered and installed 2,200+ LF of high-security fencing, including a custom 16' tall black steel no-climb barrier with precision-drilled epoxy anchoring and heavy-duty 16' cantilever gates.
